Regulations of the Council of Engineers
On Issuance of License for Practicing the Regulated Engineering Profession
at the Professional Engineer and Senior Professional Engineer Levels,
B.E. 2547 (A.D. 2004)

By virtue of Section 8 (6) (f) and Section 46 of the Engineer Act, B.E. 2542 (A.D. 1999), which is a law containing certain provisions relating to the restriction of rights and liberties of persons, for which Section 29 in conjunction with Section 39 and Section 50 of the Constitution of the Kingdom of Thailand so permitted by virtue of the provisions of law, together with the resolution of the 2003 Annual Ordinary General Meeting, and approval of the Special President of the Council of Engineers, the Council of Engineers issues these Regulations as follows:

Clause 1. These Regulations shall be called “Regulations of the Council of Engineers on Issuance of License for Practicing the Regulated Engineering Profession at the Professional Engineer and Senior Professional Engineer Levels, B.E. 2547 (A.D. 2004).”

Clause 2. These Regulations shall come into force from the day following the date of its publication in the Government Gazette onwards.

Clause 3. Regulations of the Council of Engineers on Issuance of License for Practicing the Regulated Engineering Profession at the Professional Engineer and Senior Professional Engineer Levels, B.E. 2543 (A.D. 2000), shall be repealed and replaced by these Regulations.

Clause 4. An applicant for license of regulated engineering profession practitioner at the professional engineer level shall fill the application form designated by the Board of the Council of Engineers and submit the completed form to Chief of the Council of Engineers Office along with supporting documents and evidence and in a manner described below:

(1) A list showing achievements and quantity of engineering works carried out by the applicant after being granted a license at the associate engineer level for a period of not less than three years and having accumulated experience in practicing the engineering profession. Such list shall be endorsed by signature of an engineer of the professional engineer level of higher practicing the engineering profession in the same field and discipline with the applicant;

(2) The Council of Engineers shall appoint a subcommittee or specialists in relevant fields of engineering profession to consider the achievements made and quantity of works as well as to conduct a knowledge, experience and competence test. After the applicant has passed the test, a license to practice the regulated engineering profession at the professional engineer level shall be issued; and

(3) The knowledge, experience and competence test shall be established by the Regulations of the Board of the Council of Engineers on the knowledge testing at the professional engineer level.

Clause 5. An applicant for license of regulated engineering profession practitioner at the senior professional engineer level shall fill the application form designated by the Board of the Council of Engineers and submit the completed form to Chief of the Council of Engineers Office along with supporting documents and evidence and in a manner described below:

(1) A list showing works achieved and quantity of engineering works carried out by the applicant after being granted a license at the professional engineer level for a period of not less than five years and having accumulated experience in practicing the engineering profession. Such list shall be endorsed by signature of an engineer of the senior professional engineer level of higher practicing the engineering profession in the same field and discipline with the applicant;

(2) The Council of Engineers shall appoint a subcommittee or specialists in relevant fields of engineering profession to consider the achievements made and quantity of works as well as to conduct a knowledge, experience and competence test. After the applicant has passed the test, a license to practice the regulated engineering profession at the senior professional engineer level shall be issued; and

(3) The knowledge, experience and competence test shall be established by the Regulations of the Board of the Council of Engineers on the knowledge testing at the senior professional engineer level.

Clause 6. In the case where there is no or it is impossible to find a qualified engineer to endorse the achievements or quantity of works of an applicant for license at the professional engineer level and senior professional engineer level in a certain field or discipline of regulated engineering profession, the Board of the Council of Engineers shall establish another procedure to endorse the achievements or quantity of works.

Announced on 17 March 2004

Chadab Padmasuta

President of the Council of Engineers
