Regulations of the Council of Engineers
On Requirements and Qualifications of Regulated Engineering Profession Practitioners of Each Level
in the Field of Mining Engineering (No. 2),
B.E. 2558 (A.D. 2015)

Whereas it is expedient to change the names of the types of regulated engineering profession works in the field of mining engineering to be in line with the Ministerial Regulations Prescribing the Fields of Engineering Profession and Regulated Engineering Profession, B.E. 2550 (A.D. 2007), and add new types and sizes of works in practicing the regulated engineering profession to enable the persons licensed to practice the regulated engineering profession in the field of mining engineering at the professional engineer level and associate engineer level to better practice the profession;

By virtue of Section 8 (6) (f) and paragraph two of Section 46 of the Engineer Act, B.E. 2542 (A.D. 1999) and the Ministerial Regulations Prescribing the Fields of Engineering Profession and Regulated Engineering Profession, B.E. 2550 (A.D. 2007), the Council of Engineers, with approval of the 1/2012 Ordinary General Assembly on 1 June 2012 and approval of the Special President of the Council of Engineers, issues these Regulations as follows:

Clause 1. These Regulations shall be called “Regulations of the Council of Engineers on Requirements and Qualifications of Regulated Engineering Profession Practitioners of Each Level in the Field of Mining Engineering (No. 2), B.E. 2558 (A.D. 2015).”

Clause 2. These Regulations shall come into force from the day following the date of its publication in the Government Gazette onwards.

Clause 3. The term “sub-discipline” in the Regulations of the Council of Engineers on Requirements and Qualifications of Regulated Engineering Profession Practitioners of Each Level in the Field of Mining Engineering, B.E. 2551 (A.D. 2008), shall be replaced by the term, “work”.

Clause 4. The provision of (3) of Clause 5 of the Regulations of the Council of Engineers on Requirements and Qualifications of Regulated Engineering Profession Practitioners of Each Level in the Field of Mining Engineering, B.E. 2551 (A.D. 2008), shall be repealed and replaced by the following:

“(3) Mine tunneling or shaft or any openings in rock formation with sectional area of not over 40 square meters or the maximum production capacity of not over 150,000 metric tons per year.”

Clause 5. The following provision shall be added as (5) of Clause 6 of the Regulations of the Council of Engineers on Requirements and Qualifications of Regulated Engineering Profession Practitioners of Each Level in the Field of Mining Engineering, B.E. 2551 (A.D. 2008):

“(5) Milling, grinding, or crushing of mineral with an aggregate power of not over 1,200 kilowatts.”

Clause 6. A person licensed to practice the regulated engineering profession who has practiced the regulated engineering profession of the type and field specified in the license in accordance with rules and conditions prescribed by the Regulations of the Council of Engineers on Requirements and Qualifications of Regulated Engineering Profession Practitioners of Each Level in the Field of Mining Engineering, B.E. 2551 (A.D. 2008), before the date these Regulations comes into force may continue to perform the work until it is completed.

Announced on 5 February 2015
Kamol Takabut
President of the Council of Engineers
