Regulations of the Council of Engineers
On Requirements and Qualifications of Regulated Engineering Profession Practitioners of Each Level
in the Field of Environmental Engineering,
B.E. 2551 (A.D. 2008)

By virtue of Section 8 (6) (f) and paragraph two of Section 46 of the Engineer Act, B.E. 2542 (A.D. 1999), and the Ministerial Regulations Prescribing the Fields of Engineering Profession and Regulated Engineering Profession, B.E. 2550 (A.D. 2007), which are laws containing certain provisions relating to the restriction of rights and liberties of persons, for which Section 29 in conjunction with Section 43 and Section 45 of the Constitution of the Kingdom of Thailand so permitted by virtue of the provisions of law, the Council of Engineers, with approval of the Ordinary General Assembly of the Council of Engineers and approval of the Special President of the Council of Engineers, issues these Regulations as follows:

Clause 1. These Regulations shall be called “Regulations of the Council of Engineers on Requirements and Qualifications of Regulated Engineering Profession Practitioners of Each Level in the Field of Environmental Engineering, B.E. 2551 (A.D. 2008).”

Clause 2. These Regulations shall come into force from the day following the date of its publication in the Government Gazette onwards.

Clause 3. The works, types and sizes of regulated engineering profession in the field of environmental engineering shall be as stipulated in the Ministerial Regulations Prescribing the Fields of Engineering Profession and Regulated Engineering Profession, B.E. 2550 (A.D. 2007).

Clause 4. A person licensed to practice the regulated engineering profession in the field of environmental engineering at the senior professional engineer level may practice the environmental engineering works of all types and sizes.

Clause 5. A person licensed to practice the regulated engineering profession in the field of environmental engineering at the professional engineer level may only perform project planning work,

design and computational work, construction or production supervision, investigation work, or operation and maintenance supervision of all types and sizes.

Clause 6. A person licensed to practice the regulated engineering profession in the field of environmental engineering at the associate engineer level may practice only the following works, types and sizes of the regulated engineering profession in the field of environmental engineering:

(1) Design and Computational Work:

(a) Clean water system for factory, public building, or large scale building, with maximum daily production of not over 100 cubic meters

(b) Wastewater system for community, factory, public building, or large scale building with maximum daily capacity of not over 100 cubic meters;

(c) Solid waste system in following places:

1) Community having solid waste of not over 20,000 kilograms generated per day;

2) Factory, public building, or large scale building with solid waste of not over 4,000 kilograms generated per day; and

3) Infection source with solid waste of not over 30 kilograms generated per day;

(d) Fire extinguishing system and fire prevention system with total value of 3 million Baht or more per system, or with fire protection area of not over 4,000 square meters; and

(2) Construction or production supervision, investigation work or operation and maintenance supervision of all types and sizes.

Clause 7. A person licensed to practice the regulated engineering profession in the field of environmental engineering at the adjunct engineer level may practice the environmental engineering works of the types and sizes specified in the license.

Clause 8. In the case where it is necessary to make a judgment on requirements and qualifications of regulated engineering profession practitioners at each level in the field of environmental engineering under these Regulations, the Board of the Council of Engineers shall be responsible for making such judgment and the Board of the Council of Engineers' judgment shall be final.

Announced on 13 November 2008

Wira Mawijak
President of the Council of Engineers
